The Black Woman's Guide to Overcoming Domestic Violence Shavonne J. Moore-Lobban 2022-06-01 Your journey to healing and wholeness after domestic violence begins here. Domestic violence is about power and control. As a Black woman and a survivor of domestic violence, you have had your power taken away from you against your will. You are not alone, and there are tools you can use to feel whole and in control of your life again. Written by two psychologists and experts in BIPOC mental health, this book will show you how to start healing—mentally, emotionally, and spiritually.

Grounded in cognitive behavioral therapy (CBT), this compassionate book addresses the unique struggles faced by Black women who have experienced domestic violence. You'll find practical and empowering skills to help you understand and heal from trauma, leave harmful situations, and regain a sense of safety and freedom. You'll also learn how to build a safety net, trust yourself—and others—again, and let go of the shame and guilt resulting from your experience. Finally, you'll discover ways to reclaim your self-worth, set boundaries in your relationships, and make room for self-care in your day-to-day life. If you're ready to leave—or have already left—an abusive situation, this book can help you heal from the trauma of domestic violence and discover personal freedom in mind, body, and spirit.

Conation Rick Johnson 2020-02-16 When an intuitive teenage girl leaves behind her day-to-day routine of high school, soccer practice, and friends to set out on a harrowing journey through the dangers of terrorist violence and government mind control, she ends up learning that her only real hope lies in finding the strength to believe in herself. Seventeen-year-old Ren Sterling's life is shattered when her scientist father is assassinated by Conation, an antigovernment terrorist organization. Yet even before her father's murder, Ren has found herself increasingly dissatisfied with what she sees as the contrived and limited nature of her existence in the government-imposed social structure, called The Order. And she is more and more confused by the competing realities that have been foisted upon her—while the government and the President of The Order try to convince Ren to become the face of the status quo, the terrorists and her mysterious love interest, Zian, encourage her to see the truth behind the government's lies and manipulations. Both the terrorists and the government try to sway Ren through the use of neuroprocessor technology, powerful computer chips that are implanted in each citizen at birth. Over time Ren learns that the government is using these neuroprocessors to quiet the public's existential anxiety and limit individualistic thinking. She eventually also discovers that her father was working with Conation to undermine the government's control. All the while her dreams begin to reveal her emerging intuitive abilities, and as Ren struggles to discern these dreams from reality, she courageously fights to reclaim her freedom. The answers she uncovers during this journey reveal shocking truths about her life and relationships and teach her the value of embracing and believing in her own choices.

Hollywood or History Scott L. Roberts 2018-07-01 Teaching and learning through Hollywood, or commercial, film productions is anything but a new approach and has been something of a mainstay in the classroom for nearly a century. Purposeful and effective instruction through film, however, is not problem-free and there are many challenges that accompany classroom applications of Hollywood motion pictures. In response to the problems and possibilities associated with teaching through film, we have collaboratively developed a collection of practical, classroom-ready lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms. We believe that film can serve as a powerful tool in the social studies classroom and, where appropriately utilized, foster critical thinking and civic mindedness. The College, Career, and Civic Life (C3) framework, represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking, reading and writing. We believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country, the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute. Our hope is that this edited book might play a small role in the larger project of supporting practitioners, specifically K-12 teachers of United States history, by offering a collection of classroom-ready tools based on the Hollywood or History? strategy and designed to foster historical inquiry through the careful use of historically themed motion pictures. The book consists of K-5 and 6-12 lesson plans addressing the following historical eras (Adapted from:

Discourse, Hegemony, and Populism in the Visegrád Four Seongcheol Kim 2021-08-13 This is the first book-length account of populism in the Visegrád Four (V4) countries — Czech Republic, Hungary, Poland, and Slovakia — for the first 30 years of multi-party competition since the transformative events of 1989–91 in Central and Eastern Europe. Advancing a post-foundational approach to populism based on a semi-formal reading of Ernesto Laclau's theory, the book undertakes a detailed examination of how the 'people' has been constructed in populist discourses in the party systems of the four countries since 1989. Drawing on a wealth of source material, the book offers both a wide-ranging and in-depth overview and classification of populism in the V4 in terms of discursive (e.g. centrist, conservative, left-wing, liberal, nationalist, social) and hegemonic type (e.g. authoritarian hegemonic, generational counter-hegemonic) alike. This book will be of interest to students and scholars of populism, party politics, and Central and Eastern Europe.

Beyond Biden Newt Gingrich 2021-11-02 Bestselling author Newt Gingrich exposes the anti-American forces that have grown so large and so aggressive in their quest for power. The struggle between the defenders of America as an exceptional nation and the forces of anti-Americanism is reaching a fever pitch. These forces have grown so large, so well-financed, so entrenched and aggressive that they must be studied closely and understood completely if America is to survive this imminent civil war. In Beyond Biden, bestselling author Newt Gingrich brings together the various strands of the movement seeking to destroy true, historic American values and replace this country with one that's imposed on us by the combined power of government and social acceptance.

Freedom's Law Stephen B. Pearl 2021-12-10 Escaped e-entertainment star Rowan McPherson and her liberator, retired Space Forces Captain Ryan Chandler, have arrived at the Switchboard Station, the central hub of the Galactic Republic. The alien-administered sectors of the station provide sanctuary, as long as Ryan and Rowan keep out of United Earth Systems territory. However, Rowan's health is deteriorating, and only advanced human medicine can save her. Docking in the felinezoid sector and boarding with old friends, Ryan searches desperately for medical facilities outside of the human-controlled parts of the station. Prejudice against clones makes the task harder, as well as obsessive and dangerous foes intent on retrieving Rowan for the studio, or killing her, whichever is easiest. Meanwhile, back on the set of Angel Black, the truth about the clones' existence comes to light. Working in secret, they begin recruiting outside their show's cast, and even their own enemies, as they plot rebellion. The light-years-long arm of the law is treading closely on all the clones' heels and they will have to step carefully in their battle to be free.

Demystifying Your Business Strategy David Lei 2013 While scores of strategic management books have been written, many books fail to take into consideration the influences that shape and constrain managers' ability to formulate and execute well-thought out strategies. Demystifying Your Business Strategy acknowledges and harnesses those influences, providing practitioners with a helpful new approach to developing and maintaining a competitive advantage. In this book, David Lei and John W. Slocum offer readers a comprehensive overview of the drivers of evolutionary advantage, recognizing that sources of competitive advantage for any organization will necessarily shift and evolve in response to changes in the industry environment. Demystifying Your Business Strategy also offers practical insights on how to spot "inflection points" of strategic transition and identify signals that indicate when an organization needs to develop a new source of competitive advantage. With in-depth discussion of the four different types of business strategies that many firms pursue and the strategic disciplines that support them, this book can provide significant insight and direction to managers at all levels within an organization.

Ali Muhami and the Forty IEDs Anthony S. Petrucci, Esq. 2020-03-31 Ali Muhami, the American attorney, the trusted infidel, invited to the Kingdom of Saudi Arabia to manage the security of the oil pipeline and the industrial city, was bestowed with the highest government security clearances for which he was blackmailed by Colonel Abdullah leading the military coup d'etat to overthrow the King and the Royal family in order to hold democratic parliamentary elections and institute reforms of religious freedom and pluralism, thus transforming Saudi Arabia and Islam forever. Blackmailed into betraying the leaders of the Islamic terrorist group, Al Jihad, so the Colonel could kill them all on Christmas day and foil their plot to sabotage the oil pipeline, incite a holy war and behead the King and the Royal family, Ali was tortured by the fear of losing his own head videoed at the edge of the Red Sea, a humiliating spectacle of his ear-to-ear decapitation shown to the whole world. The guilt he felt, loathing himself while he deceived everyone...Jalal, Ali, Sahir, Bilal, Marwan, Aziz, Steve, Dave, and Jerry, the friends he would lose. And what of Diane, Alya, and Jennifer...and the love he would lose ? The day he was first told by the Colonel they knew from his own words his thoughts, his opinions and what he believed in, began the paranoia that crept deep into his mind. There was no escape from a country you couldn't leave without permission. From the honest, trustworthy man of integrity they believed him to be, above reproach, to the fateful day when they began to suspect him and distrust him, the seeds of discontent began swirling like sand in a desert storm...plotting a tale of blackmail, betrayal, palace intrigue, Islamic terrorism, sabotage, and a coup to overthrow the King. How Ali was proclaimed a patriot, awarded the civilian Medal of Honor leaving the Kingdom of Saudi Arabia a hero, is a story you would not believe, except so much of what you'll read was true.

Live Free Or Die Shona Banda 2010-06-01 The new guide to help us all survive in the new world to come. This book will spark something inside each and every one of us. Mrs. Banda reminds us that we must re-learn the things we have forgotten in order to truly live free in peace and harmony; respecting others, their property, thoughts, speech, and religion. Live Free or Die is meant to help the reader attain knowledge, it is up to the reader to use this knowledge understanding and knowing the risks/ and rewards, involved. The Author is brilliant at explaining her near death experiences with a terminal case of Crohn's Disease. She makes you feel as if you have walked the journey with her as she used a concentrated oil made from the cannabis plant to put her disease to rest. This book exposes deep corruption within our system, and ways to fight it. Picking up Live Free or Die will inevitably change the way the reader may view the world. It may empower the reader to get involved; it will save the lives of many, and will be the spark that will help to ignite the revolution to take back our country.

Reclaim Your Body! Saravanan Kandan 2020-10-20 The book details the solution to the complex health issues faced by human dysevolution. The solution is traced after gross explanation of evolution of human design and the reasons of disruption. Grounded in science and explained with real life case studies, the solution elucidates the catalytic role and prescription of real food, right movement and healthy lifestyle. Backed by research, the author demystifies myths and debunks the hype around modern diets to explain the value of natural wholesome real foods. Detailed content on how exercise cures diseases and prescription to improve the movement deficit lifestyle has been outlined. The book concludes with integrated health framework for society, where preventive healthcare in the true sense could help in focusing all the

developmental effort. Thus the book offers a holistic, long-term approach enabling the reader to reclaim the human body in the pursuit of a healthier and happier life.

A More Perfect Union Ben Carson, MD 2015-10-06 Dear Reader, Many people have wondered why I've been speaking out on controversial issues for the last few years. They say I've never held political office. I'm not a constitutional scholar. I'm not even a lawyer. All I can say to that is "Guilty as charged." It's true that I've never voted for a budget America could not afford. I've never raised anyone's taxes. And I've never promised a lobbyist anything in exchange for a donation. Luckily, none of that really matters. Our founding fathers didn't want a permanent governing class of professional politicians. They wanted a republic, in Lincoln's words, "of the people, by the people, and for the people." A country where any farmer, small-business owner, manual laborer, or doctor could speak up and make a difference. I believe that making a difference starts with understanding our amazing founding document, the U.S. Constitution. And as someone who has performed brain surgery thousands of times, I can assure you that the Constitution isn't brain surgery. The founders wrote it for ordinary men and women, in clear, precise, simple language. They intentionally made it short enough to read in a single sitting and to carry in your pocket. I wrote this book to encourage every citizen to read and think about the Constitution, and to help defend it from those who misinterpret and undermine it. In our age of political correctness it's especially important to defend the Bill of Rights, which guarantees our freedom to speak, bear arms, practice our religion, and much more. The Constitution isn't history—it's about your life in America today. And defending it is about what kind of country our children and grandchildren will inherit. I hope you'll enjoy learning about the fascinating ways that the founders established the greatest democracy in history—and the ways that recent presidents, congresses, and courts have threatened that democracy. As the Preamble says, the purpose of the Constitution is to create a more perfect union. My goal is to empower you to help protect that union and secure the blessings of liberty. Sincerely, Ben Carson

Finding Freedom Julie Ann Price 2018-12-11 How much freedom have you lost? I am not talking about government restrictions or following the law. I am talking about your personal freedom. The kind of freedom that you use every single day - like how you talk, what you think, how you dress, and what you strive for. Most people give up their everyday freedoms and don't even notice it. Many of the freedoms that you have lost are related to the freedom to be who you are without excuses. Freedom to be the real you! We are so busy following social norms and expected behaviors that we never stop to look at how we really want to respond in a given situation. What could you have said that was more in line with what you believe? What could you have done to feel really good about your day? Every day you have a chance to exercise your freedom muscles but most of us don't. Learn how to break free of society's rules and reclaim your personal lost freedom. This journal will guide you through freedom exercises so that you can explore and reclaim your freedom. Now is the time - don't let another day go by living in society's chains. The journal will offer you more than 20 different exercises or challenges to try. Pick a new challenge every day or every week and try on a new form of freedom. You don't need anything but your own mind to do these exercises. For example, one day you are challenged to do one small rebellious thing. As you go through your day, you will look for an opportunity to rebel. Just the act of looking for this opportunity will increase your awareness of what it means to be free. This is an exciting journey and one you will want to take your time and really capture. You will find that you want to do some of the exercises over and over. You could really change your life! I can't tell you how therapeutic it has been for me and a family member I gave a copy to for Christmas. This makes a great gift for friends and family who are struggling to find themselves or feel confined by their situation. Journal includes: Thought-provoking freedom exercises Blank pages to capture your experiences as you do each exercise Inspirational quotes 119 pages The e-book version comes with a free PDF download. This allows you to write in your own journal and only print the pages you want. Have fun - I am so excited to see what you will do with this journal.

The 15 Commandments Mattias Papandreou 2010-12-15 As I write this, it is 2010. So far we have had quite a dramatic decade: 9/11, the invasion of Iraq, George Bush gets elected (Twice!), the iPod, the Xbox, Facebook, Twitter, and a pope who doesn't even look at the camera, the Beijing Olympics (Wasn't that a show?!), the earthquake in Haiti and Chile, and a black man becomes president of the USA, and they used to say pigs would fly when a black man became president, and sure enough swine flu! It's a lot different compared to 10 years ago. The world and technology is changing at such a fast rate, but I feel us people are really not mentally moving along through with the times though.

One Good Soldier Travis S. Taylor 2009-12-01 One Good Soldier is the third book in the rapid-fire hard science military SF series of One Day on Mars and The Tau Ceti Agenda. In another 24-like narrative set six years after the events in The Tau Ceti Agenda, this exciting action story unfolds in a single critical day in the history of the United States of the Sol System, the extra-solar colonies, the Separatist Revolutionaries of the Tau Ceti system, and all of mankind. As another of Earth's colonies, Ross 128, secedes from the union, the President of the United States, former marine major Alexander Moore, takes swift action to prevent a second American Civil War, this time on an interstellar scale. He sends the flagship of the U.S. Naval fleet through the Quantum Membrane Teleporter based in the Oort Cloud to the seceding colony. But the Tau Ceti Separatists have stationed their own teleporter there and the flagship will be met with heavy resistance from the Separatist Navy. And, unknown to the president and first lady, their eighteen year old military school cadet daughter has been kidnapped and whisked away to the Separatist leader's house on Tau Ceti. Only the heroics and sacrifices of one good soldier after another can save the flagship, the Union, and the first daughter in an all-out winner-take-all showdown that reaches its final climax with frenzied hand-to-hand combat in the Oval Office itself. At the publisher's request, this title is sold without DRM (Digital Rights Management). Praise for Travis S. Taylor: "[Warp Speed] reads like Doc Smith writing Robert Ludlum. . . . You won't want to put it down. FLUBELLS AWAY!" ¾John Ringo "In the tradition of Golden Age SF . . . [The Quantum Connection, sequel to Warp Speed] explodes with inventive action . . . dazzling . . .

Constitutional Law for a Changing America Lee Epstein 2021-08-03 Political factors influence judicial decisions.

Arguments and input from lawyers and interest groups, shifting public opinion, and the ideological and behavioral inclinations of the justices collectively influence the development of constitutional doctrine. In Constitutional Law for a Changing America, bestselling authors Lee Epstein, Kevin T. McGuire, and Thomas G. Walker draw on both political science and legal studies to analyze and excerpt cases, accounting for recent landmark court decisions, including key opinions handed down through the 2020 term. Updated with additional material such as recent court rulings, more than 500 supplemental cases, and greater coverage of freedom of expression, this Eleventh Edition will develop students' understanding of how the U.S. Constitution protects civil rights and liberties. Take Back the Land Rick Boyer 2011-10-01 "This is a book for young people. It was written because I believe young people are important and that they have a huge part in God's plan for the future of America and the Church. In fact, you are the future, and a big part of the present, too." – Rick Boyer, The Learning Parent God is calling you to greatness. No excuses. Be ready to answer the call. As a young person, you have the chance to impact the future in a positive, godly way. The question is: "Are you ready for the challenge?" If you're a believer in Jesus Christ, your calling is to change the world. All you need to get started is the desire to influence your country and church in a positive way. Home schooling and the strength of the Christian family is helping to produce the future leaders of our culture, those with the potential to lead decades of revival and national reformation. If you ignore the challenge, there is little hope for America. A lot depends on you. So, here is the challenge: Grow up. Now. Get busy. Take responsibility to change this world for God, because that's exactly what He expects you to do. Your life matters, and God wants to make your life great. It won't be easy, and reading this book, you may feel it's being a little tough on you. There are high expectations and little allowance for excuses. Life isn't easy, but strive to make it a worthy one. Pioneer missionary William Carey once said, "Attempt great things for God. Expect great things from God." "Take Back the Land is an important, landmark book for the homeschool movement. Written by homeschooling pioneer Rick Boyer, its message is aimed at the Joshua Generation whose special mission is nothing less than taking America back to its Christian roots. The author explains the meaning of this great mission and why he believes the Joshua Generation has been chosen by the Lord to carry it out." - Samuel Blumenfeld, columnist The New America "Take Back the Land is a call to young adults to get busy for the kingdom, to take the Word of God seriously and apply it in every area of life. Great exhortation to pray, seek wise counsel and act! Filled with ways that young adults can make an impact on the world that God created. Well done Mr. Boyer! Well done!" - Corey Cheney, Christian Home Educators of Colorado and Homeschool Update Magazine

Unapologetic Freedom Justin Rezvani 2022-04-06 Centralization has made it easier for governments to standardize and regulate industries, and for media and technology companies to create and grow their own ecosystems. But the trouble with such centralized networks is that they are also susceptible to censorship, control, and a loss of freedom, as we've seen to our cost in the past few years. Combining decentralization and encryption through the Bitcoin standard and Lightning Network offers the return of the personal liberty that centralized banking, government, and social media entities have started to strip away. By the time you've finished reading this book, you'll see how Bitcoin (the asset and network) can help you: ?Reclaim freedom of and after speech?Participate in a more civilized and accountable online discourse that mirrors in-person conversation?Resist deplatforming, shadow banning, and all other forms of censorship?Connect with creators and their unfiltered content in an authentic way?Take hold of digital property rights that give you full ownership of your data ?Regain control over your financial assets?Assert your right to unapologetic freedom forever"If you've ever wanted a way to make your digital interactions as authentic and free as in-person conversations, look no further. This book provides the path to a richer, more civil world." - Tony Robbins, entrepreneur, New York Times bestselling author, and the nation's #1 life & business strategist"While the dominant mythos of the world teaches that the salvation of humanity lies in the implementation of ever-greater levels of control, monitoring, and censorship, I believe the opposite. I believe that when you trust people, they become more trustworthy. I believe that arrival at the truth requires all disparate viewpoints to be freely expressed. So I believe in the decentralized vision for the future that Justin shares in this book."- Aubrey Marcus, founder of Onnit, host of the Aubrey Marcus Podcast, and author of Own the Day, Own Your Life

How to Save America Michael Mathiesen 2014-08-24 This website will help save your assets and save America at the same time -<http://Cyberwealth7.com/Money> Watch the Video and then Scroll Down and Join Us. After reading this book, you may agree that - How To Save America - is probably the most important book you have ever known. The first attack on America on 9/11 was just the beginning. In the second attack on America, that has already begun, they are not going after our tallest buildings and it's not the usual suspects who are attacking. This attack is from the enemy within, and they are attacking each and every individual American family by stealing our assets. It wasn't enough for them to destroy our economy and ruin this country's reputation. Now, they're coming to steal our bank accounts, our retirement plans, our 401k's, our Online Stock Trading Accounts, our savings, our nest-eggs, even our homes are at risk. Don't believe me, just count all the homeless people in your community and ask yourselves where it will stop. The invaders are our own elected leaders. It's time we removed our heads from the holes in the ground and wake up and reclaim this great country and

bring it back to where it belongs. This book is a simple and easy to understand outline of what we have to do, how we can do it, where to begin it, and where it will end. Every patriotic American must read this book and they must tell everyone they know to read it. Tom Jefferson said - "When the government fears the people, there is Liberty. When the people fear the government, there is Tyranny." He also said in the founding documents of this great nation - "That to secure these rights governments are instituted among men, deriving just powers through the consent of the governed. Whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it and institute new government laying its foundation on such principles and organizing its powers in such form as to them (meaning us living today) shall seem most likely to affect their safety and happiness." We are at the point in history where our government is more destructive of our rights and freedoms than they are constructive and therefore, it is now the time for all good men to come to the aid of their country by preserving and protecting your assets and your freedom. This book is the only peaceful, logical and economical way to do all of the above plus much more. If you have any patriotic fervor, or any sentimentality for the life and future of the greatest country that ever lived, this book is for you. Included is a simple and highly effective plan where every American citizen or any citizen of any nation can protect their assets from the next major attack on this country and the world that is going on at this present time and supported by the American, Russian and Chinese governments. First we identify the attackers, the nature of the threat and how anyone can protect their family from these attacks, easily, quickly and at little to zero expense and perhaps even profit from being at the right place at the right time, the construction of the new economic model. This book is endorsed by the Founding Fathers of this great nation. George Washington, Tom Jefferson, James Madison, John Hancock, Ben Franklin wanted desperately to give us the full effect of a real democracy when forming this country in 1789. However, they had not even heard of electricity at this time, so they gave us the half-baked form of democracy that they knew would someday have to be upgraded to something that would last forever. With the invention of the Internet, the time has finally arrived where we can choose the best solutions to any given problem in a matter of minutes. Our elected leaders never choose the right and proper, least expensive solutions to our problems because they are paid not to think. The Internet is changing all of that. Find out how you can become a part of the solution.

How to Legally Never Pay Income Taxes Ever Again Israel Light 2015-05-21 If you Google "legally stop paying income tax" noted business leader of America, Israel-Light founder Veronica Grey is the ONLY person ever interviewed on TV on this subject. Vetted for by CNN, ABC, & Fox News. YOU DO NOT HAVE TO BE A CELEBRITY to enjoy a LEGALLY tax free life. You've heard a whiff of a rumor that there's other ways to go through life as in 100% TAX FREE and LEGALLY. She has been on almost every network presenting this subject <http://www.youtube.com/TrueGreyThoughtLeader> You CAN qualify in your state as LEGALLY TAX FREE & NEVER have to deal with the federal IRS again. YOU CAN BE "FOR PROFIT" and still claim legal tax exemption: <http://tinyurl.com/TaxFreeLife> ! All you have to do to is start your own spiritual not-for-profit organization and it is SUPER EASY to do. EASIER THAN STARTING A NORMAL BUSINESS. We spell it out for you here in layman's terms. It costs you less than \$300 to file the paperwork to become tax free. We have been living this lifestyle over 8 years, LEGALLY. All the Occupy movements reveal that this country needs more freedom. Protesters keep finding someone to blame. If they would read information like this, they would have something much more constructive to focus upon that will achieve REAL results, not just some lame token like "no more ATM fees." What these people really want is to be tax free. The government knows that ANYONE who truly tries CAN BECOME your very own 100% tax exempt not for profit corporation, which is why government isn't so moved by Occupy. If I were the IRS, maybe I too would be like, "Why are they all in Zuccotti Park camping when they could be at their nearest library or public counsel offices filling out paperwork to become legally tax exempt?" God helps those who help themselves. As does government. When you connect both, you live legally tax free by serving God via Government rules. The first amendment separating church and state actually grants us freedom by unifying the two, compliantly. For those naysayers who hem and haw about us "not paying taxes" please note WE PAID TAXES EACH TIME WE BUY SOMETHING OR EAT OUT. Those taxes go to the government because the companies we pay those taxes to pay the government. So when you consider that, realize we are NOT saying you never paid ANY taxes. We are simply showing the LEGAL way to use what would have been your INCOME to help people. If you have seen stuff online about how to become a "Free Man;" reclaim your sovereignty by using freedom documents and being a secured creditor, this way is MUCH EASIER AND FASTER. When you form a spiritual not for profit and transfer EVERYTHING you own to it, ie houses, cars, gold, stocks, etc. it ALL becomes LEGALLY non-taxable. Legal disclaimer: This book is 100% tax deductible, thereby making it a FREE gift from us to you! Simply reference our Federal EIN 61-1555550 to claim your exemption equal to the amount you "paid." When you make a "payment" it is actually a donation since we are a charity. Your donation is voluntary and without condition. Legally we can't "owe" you anything in exchange for making this donation. However, we GIFT this book to you as part of our mission to serve the masses. THANK YOU for your support and God bless America! Let us keep it land of the FREE and home of the BRAVE! Saving the best for last: Whoever coined the phrase that death and taxes are the only things we are sure of was demonic. Did you know that God's original plan is that humans never die, but live forever in an earthly paradise. Well that is a definition of heaven. Death is not inevitable. We have "proof" on <http://tinyurl.com/WealthAndWisdom> . This book is proof that taxes are not inevitable as well! WE OFFER FREE PERSONAL PHONE / EMAIL GUIDANCE to all our clients-we are the best and the ONLY ones in this business! Namaste.
