De duizelingwekkende jaren Philipp Blom 2011-06-14 Stel je voor dat je de jaren 1900 tot 1914 zou bezien zonder de schaduw die de gruwelijke gebeurtenissen van de twintigste eeuw daarover geworpen hebben. Stel je voor dat je niets wist van de Somme, van Stalingrad, Auschwitz, Hiroshima, dat de toekomst nog open en ongevuld zou zijn. Zo beschrijft Blom die veertien jaren: zoals ze beleefd zijn in al hun complexiteit en tegenstrijdigheid en met de bijbehorende hoop en vrees. Hoe zag Frankrijk eruit in 1900, ten tijde van de Wereldtentoonstelling? Wat hield de Engelsen bezig in het jaar waarin koningin Victoria stierf? Blom beschrijft de industriële ontwikkeling en de aanzienlijke versnelling waarin de wereld vervolgens raakte. De

twintigste eeuw is niet begonnen in de loopgraven, maar in de duizelingwekkende jaren die eraan voorafgingen. Blom betreft de literatuur en de beeldende kunst erbij en brengt zodoende het verleden op een buitengewoon aantrekkelijke wijze tot leven.

The Future of Food Mustafa Bayram 2020-03-30 The destiny of humans is parallel to the destiny of food. If the latter is available, then the former will also be present. The definition of food today is very different from that of our ancestors, who saw it as a nutritious thing that may obtainable through collecting or planting. However, today, food can be modified genetically and made through molecular synthesis. This book discusses the future of food, and explores the context of novel definitions of food through horizon scanning. It considers the most cutting-edge developments in the food industry, including lab-meat, nano-engineered foods, vertical agriculture, foodomics, and Marsfoods. The book also investigates new food engineering processing techniques, future technologies, and future consumption trends.
