Ver weg van het stadsgewoel Thomas Hardy 2016-02-02 De titel is ironisch: alle hoofdpersonages zijn mensen vol gevoel die het plattelandsleven niet als rustig of kalm ervaren. De roman draait om een onafhankelijke vrouw, Batsheba Everdene, die zo moedig is conventies te negeren en zelfstandig een boerderij te beheren. Ze heeft drie aanbidders wier levens onvermijdelijk met elkaar verstrengeld raken. Ver weg van het stadsgewoel is een poëtische roman. Hardy begon als dichter en schreef daarna pas romans. Later keerde hij terug naar de poëzie. Juist in zijn romanfase schreef hij prachtige regels; gedeelten uit dit boek zijn ooit geschreven als blanke verzen. Het resultaat is verbluffend. Dit meeslepende boek is nooit eerder in het Nederlands vertaald. Marcel Otten – vooral bekend om zijn prachtige vertalingen uit het IJlands – slaat met de vertaling van dit werk nieuwe wegen in.

Assessing Academic Literacy in a Multilingual Society Albert Weideman 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and, to a much lesser extent, Afrikaans, but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools, which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students, not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

The Oxford Handbook of Assessment Policy and Practice in Music Education Timothy S. Brophy 2019-01-02 In the music classroom, instructors who hope to receive aid are required to provide data on their classroom programs. Due to the lack of reliable, valid large-scale assessments of student achievement in music, however, music educators in schools that accept funds face a considerable challenge in finding a way to measure student learning in their classrooms. From Australia to Taiwan to the Netherlands, music teachers experience similar struggles in the quest for a definitive assessment resource that can be used by both music educators and researchers. In this two-volume Handbook, contributors from across the globe come together to provide an authority on the assessment, measurement, and evaluation of student learning in music. The Handbook's first volume emphasizes international and theoretical perspectives on music education

assessment in the major world regions. This volume also looks at technical aspects of measurement in music, and outlines situations where theoretical foundations can be applied to the development of tests in music. The Handbook's second volume offers a series of practical and US-focused approaches to music education assessment. Chapters address assessment in different types of US classrooms; how to assess specific skills or requirements; and how assessment can be used in tertiary and music teacher education classrooms. Together, both volumes of The Oxford Handbook of Assessment in Music Education pave the way forward for music educators and researchers in the field.

Educational Assessment in a Time of Reform Coert Loock 2019-11-20 Educational Assessment in a Time of Reform provides background information on large-scale examination systems more generally and the South African examination specifically. It traces the reforms in the education system of South Africa since 1994 and provides a description of the advances in modern test theory that could be considered for future standard setting endeavours. At the heart of the book is the debate on whether the current standard of education in Africa is good enough . If not, then how can it be improved? The aim of this book is to provide a point of departure for discussions on standard-setting, quality assurance, equating of examinations and assessment approaches.

From this point of departure recommendations for practices in general and the exit-level (Grade 12) examination results in particular can be made. This book is ideal reading for principals, teachers, academics and researchers in the fields of educational assessment, measurement, and evaluation.
