Decentralisation and Local Governance L. C. Jain 2005 This is a collection of 20 essays, dedicated to Dr George Mathew, by eminent scholars and academics on decentralised governance and its importance in a globalising world. Based on empirical studies and paradigms of developed and developing countries, it has an overarching focus on India's panchayati raj institutions. The Seventy third constitution Amendment Act of 1992, by making PRIs mandatory, was a historic move towards deepening democracy and advancing development through decentralisation. Decentralisation programmes in other countries (e.g S.Africa and Pakistan) are also reviewed. The book offers a comprehensive account of development and governance at the grassroots through a broad canvas of multiperspective and interdisciplinary presentations.

Policy and Practice in Asian Distance Education Tian Belawati 2010-11-10 This book has been designed for the orientation and training of specialists in open and distance learning methods in Asia. It is the outcome of the collaborative PANDora research and development initiative (2005-08) between 24 open and distance learning (ODL) institutions, government departments and non-governmental organisations in 13 Asian countries. The need for thrift and ingenuity in Distance Education (DE) methods in Asia has made Asian DE researchers and practitioners contemplate novel technological methods in DE- open-source software, cell-phone SMS, etc.-from which information and communication technology professionals in all parts of the world can learn. The guidelines in the book have been designed in modular form so that selected sections can be combined according to users' needs and translated into local languages in keeping with the PANDora network's open resources philosophy. Individual modules and combinations of them can be used in specific training contexts. Although the focus of the book is the educational sector in Asia, the guidelines proposed have worldwide application.

English Studies in Indian Universities Ravindra Baburao Tasildar 2019-01-22 Right from its formal introduction in India in 1835, through Thomas B. Macaulay's Minute, English has been intrinsically linked with the employment prospects of Indians. During their regime, the British promoted English education to fulfil the requirement of English-knowing Indians for administrative purposes. Owing to globalization, the last few years have witnessed the opening up of thousands of lucrative job opportunities for graduates proficient in English. English has gained importance in India as the language of opportunities. In colonial India, English education was a passport to government jobs, while in the twenty-first century, proficiency in English is essential for private sector jobs. This book examines the development of curricula in English in Indian universities vis-a-vis the needs of second language learners studying in Special English programmes of Bachelor of Arts (BA). It also reflects on how globalization has strengthened the connection between English and employment.

How To Typeset Your Project Report In LATEX Aniruddha Subhashchandra Rumale This book is useful for people in engineering and education for writing project reports, seminars, conference/research papers. LATEX is becoming more popular day by day due to its excellent typesetting and ease of use. But there is no good book available in the market which can talk in terms of the need of the student and/or researchers. This book is a ready reckoner for typesetting a good report/book using LATEX. It covers all necessary and essential information of LATEX required to typeset a good report/book. While typesetting our reports/books, we found that, out of 2600 packages, we hardly used not more than 20 packages. And, if the report/book is heavy in the text then many time not more than 5 packages are ever required to typeset it. This showed us a definite structure to follow for typesetting a report/book.

Problems of Indian Education N. Jayapalan 2005 The Fictional Scene In England, Immediately After The Second World War, Makes An Interesting Reading. Many Critical Studies Have, In Great Depth, Investigated The Historical Processes To Highlight The Various Directions The Novelists Moved In Then. At The Same Time, There Was A Concurrent And A Deliberate Attempt On The Part Of These Novelists To Discard The Heritage Of Modernism. Iris Murdoch, Who Is One Of The Most Prominent Novelists Of This Period, Also Shared The Distrust Of Her Contemporaries For The So-Called Literary Radicalism. However, She Remains Distinct As A Writer Among Her Contemporaries, In Her Awareness Of The Problems Of The Novel And Language, In Her Adherence, Both To The Idealism About Human Potentiality And Perfectibility That Liberal Humanism Had Contained. But She Is Also Conscious Of The Limited Individual Capacity To Reach That Ideal. Her Creative Career Is Marked By Her Desire To Bring Back To The Novel, Some Of Its Earlier Comprehensive Vision Of Life, Society And Human Character. The Present Book Attempts To Reveal Those Important Areas Of Murdoch S Thought Which Set Her Apart From Other Novelists Writing At That Time. Her Search For Literary Metaphors Which Aim At Restoring To Novel Some Of Its Lost Moorings Is A Significant, Almost Iconoclastic Effort. Taking Help From Her Non-Fictional Treatises, An Attempt Has Been Made In This Book To Highlight The Platonic Burden Of Her Literary And Aesthetic Creed.

The Last Nizam and His People Narendra Chapalgaonkar 2022-04-28 As a Princely State, Hyderabad was the largest in population among over 560 tributary states under British paramountcy in colonial India. This book is a collection of profiles and sketches of some of the most important and influential people from the erstwhile Hyderabad State during the first half of the 20th century, which marked the last decades of its existence as a distinct entity under the British Raj. It features profiles of Mir Osman Ali Khan, the Seventh Nizam; Mir Laik Ali, the last Prime Minister of Hyderabad; Kasim Razvi; some of the Nizam's administrators and diplomats; as well as Sir Walter Monckton, the Nizam's British Constitutional Advisor; amongst others. Unfolding the pages of history, the text gives an insight into the administration and affairs of Hyderabad during this time, through an examination of the lives of the people closely associated with it. A unique contribution to the literature on modern Indian and colonial history, this book will be indispensable for students and researchers of history, modern Indian history, colonialism, imperial history, biography, and South Asia studies. It will also appeal to general readers interested in the history of Hyderabad.

Technology for Efficient Learner Support Services in Distance Education Anjana 2018-09-26 This book explores the ways in which technology is being used by various open universities in developing countries to extend learner support services to distance learners. It shares the best practices being followed by different open universities so that these may be replicated by other universities. It provides an overview of the use of various digital technologies, e-learning tools, eLearning platforms, virtual learning environments, and synchronous and asynchronous technologies in open and distance learning (ODL) systems. Moreover, it discusses the importance of ODL systems in providing inclusive education in developing countries through the use of ICT with a special focus on adult, rural and elderly learners, as well as the role of technology in science education through ODL system. A transformative model of sustainable collaborative learning is presented, integrating concepts based on theoretical frameworks to increase the flexibility and solve existing

issues in developing countries, which may be used for policy changes in distance learning. It concludes by examining various challenges in successfully implementing technology for effective delivery of learner support services in distance education systems in developing countries and exploring the strategies required to overcome these challenges.

Building Green Anne Rademacher 2017-10 At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. Building Green explores the experience of environmental architects in Mumbai, one of the world's most populous and population-dense urban areas and a city iconic for its massive informal settlements, extreme wealth asymmetries, and ecological stresses. Under these conditions, what does it mean to learn, and try to practice, so-called green design? By tracing the training and professional experiences of environmental architects in India's first graduate degree program in Environmental Architecture, Rademacher shows how environmental architects forged sustainability concepts and practices and sought to make them meaningful through engaged architectural practice. The book's focus on practitioners offers insights into the many roles that converge to produce this emergent, critically important form of urban expertise. At once activists, scientists, and designers, the environmental architects profiled in Building Green act as key agents of urban change whose efforts in practice are shaped by a complex urban development economy, layered political power relations, and a calculus of when, and how, their expert skills might be operationalized in service of a global urban future.

Genetically Modified Democracy Aniket Aga 2021-11-23 How the debate over genetically modified crops in India is transforming science and politics Genetically modified or transgenic crops are controversial across the world. Advocates see such crops as crucial to feeding the world's growing population; critics oppose them for pushing farmers deeper into ecological and economic distress, and for shoring up the power of agribusinesses. India leads the world in terms of the intensity of democratic engagement with transgenic crops. Anthropologist Aniket Aga excavates the genealogy of conflicts of interest and disputes over truth that animate the ongoing debate in India around the commercial release of transgenic food crops. The debate may well transform agriculture and food irreversibly in a country already witness to widespread agrarian distress, and over 300,000 suicides by farmers in the last two decades. Aga illustrates how state, science, and agrarian capitalism interact in novel ways to transform how democracy is lived and understood, and sheds light on the dynamics of technological change in populous, unequal polities.

Theory and Practice of Distance Education Borje Holmberg 2005-07-25 Distance education is practised in all parts of the world and in recent years, its scope has developed enormously and rapidly. It has become an intrinsic part of many national educational systems and an academic discipline in its own right. Research into the area has produced a body of theory which is now being used to improve its practice. This new edition of Theory and Practice of Distance Education has been thoroughly updated both by describing how practice has changed, and by examining recent research in the field. Like the first edition, this book provides a comprehensive survey of distance education, looking at it globally and discussing the different lines of thought and models used. It describes the place of distance education in educational thinking, its various theories, principles, and techniques of presentation, its organization and its administration.

Beyond Open and Distance Education B. PanduRanga Narasimharao 2018-01-11 Beyond Open Distance Learning is not about the advances made in distance education through the use of modern communication technologies and educational pedagogies (OECs, MOOCs, web, YouTube, Twitter, etc). The book is more about the discussion on the need for new thinking (disruptive innovations) for a more holistic development or Kuhonian revolution. It discusses ways to try to escape from the cocoon we created in ODL and higher education and to move towards new horizons of a sustainable and balanced development of the society.

Know Your Rights S Srinivasan 2021-04-09 The ambiguous state of our legal structure and its formats leave the common man with no grasp of the basics of the system in which he lives. Treatises and documents are boundless, but yet so vague and so verbose, that one has neither the time to read it nor to even glance it. Over the years it is greatly felt that a standing reference material which can help abank worker to be aware of this rights as bank employee is necessary. Hence this effort on the part of mine to give you a summary of your rights as a bank employee edited from the available sources. This document is exhaustive and gives the most correct picture of our rights... This book is for all. The objectives of this book are to enable activists to understand important concepts in domestic enquiries, with practical illustrations and to get insightful understanding of changing environment of service conditions followed in banks and other sectors. it is hoped that books will be useful and will be a tool for effective defence assistant in days to come. Every line present day's employees in banks are now referring as a service condition and benefits has got an historical struggle and historical negotiation. Remember, the task of the union to shape your life, career and future was never an easy way or path. These benefits are hard earned rights in tough times. Now you hold the responsibility to preserve, protect, and improve them. Let thousand hands join and build our movement strong. Success is not a destination but it is a journey.

Digital Imagery and Informational Graphics in E-Learning: Maximizing Visual Technologies Hai-Jew, Shalin 2009-11-30 "The information contained within this book will show that although the development and selection of instructional materials is generally done towards the end of the instructional design process, it must be viewed in a more inclusive way in that the visuals themselves may affect many other components of the educational design"--Provided by publisher.

Content Based Methodology ANANT N. JOSHI 2010-07-06 This concise and easy-to-read book deals with the theory and practice of content based methodology. It begins by showing the importance of integration of teaching units of one discipline with those of other disciplines and a critical evaluation of the subject curriculum, syllabi and textbook to identify their limitations. Thereafter, the text describes the methods for determining the higher level of knowledge required for a teacher to teach a specific teaching unit. Besides, considerations which teachers need to take into account before teaching their subjects, pedagogical analysis of content, selection of proper approaches, teaching methods, and models of teaching to suit the nature of teaching contents are also explained. Finally, those factors which are to be taken into account for verifying whether the objectives have been achieved or not are discussed with sufficient examples. Primarily meant for undergraduate students of education (B.Ed. and D.Ed.), the text can also serve as a source book for teacher-educators, teachers, and teacher-trainees, whatever their teaching subjects may be.

Research in Literature and Language: Philosophy, Areas and Methodology H.V. Deshpande 2018-08-13 This book is meant for M. Phil and Ph. D. research students, research guides, writers of research papers or research articles, teachers, scholars of literature and literary criticism, students of linguistics and all those who wish to know more about research in literature and languages. Being Indo-Centric, rather than Euro-Centric, it discusses the

basic questions of research, such as: How to select a topic? How to prepare the initial synopsis? How to prepare the detailed outline of the thesis or the paper? How to develop the argument or the point of view? How to cite references? How to prepare a bibliography and the final synopsis? And how to face the Viva? It discusses fundamental questions like what is to be searched in literature and languages and why. It is clear in views, highly informative in its content, lucid and enjoyable in its style and a recent statement on the subject concerning globalisation and national development. For foreign readers, this book provides an Indian perspective of literature and research in literature and languages with reference to the concept of 'world literature' in the process of globalisation of human life.

English for Lovers of English S.K. Rana 2016-07-30 In this book, I have brought together about 1,400 utterances that are faulty. None of these faulty utterances have been produced by me to illustrate incorrect use of English. All the faulty utterances found in this book have been taken from printed material mostly from the newspapers I read. In order to focus attention on the error, I have shortened some of the faulty utterances. To me, it is very important that the faulty utterances in this book have not been produced by me. Jacques Barzun, the celebrated American scholar and recipient of the Gold Medal for Criticism from the American Academy of Arts and Letters has something very pertinent to say on genuine faults as opposed to faults that have been produced as sample utterances. This is what Barzun says: In student writing, when the assignments are frequent and well designed, all kinds of error and clumsiness occur that are never found in the sample sentences of manuals and grammar books. These faults have the advantage of being genuine; they represent somebody's way of thought, and finding them faulty is a therapeutic attack on the mind that produced them. Barzun is talking about writing done by university students in America, but what he says about it is applicable to a great deal of Indian writing too.

Assessment Tools for Mapping Learning Outcomes With Learning Objectives Sinha, G. R. 2020-09-25 In educational institutions, outcome-based education (OBE) remains crucial in measuring how certain teaching techniques are impacting the students' ability to learn. Currently, these changes in students are mapped by analyzing the objectives and outcomes of certain learning processes. International accreditation agencies and quality assessment networks are all focusing on mapping between outcomes and objectives. The need of assessment tools arises that can provide a genuine mapping in the global context so that students or learners can achieve expected objectives. Assessment Tools for Mapping Learning Outcomes With Learning Objectives is a pivotal reference source that provides vital research on the implementation of quality assessment methods for measuring the outcomes of select learning processes on students. While highlighting topics such as quality assessment, effective employability, and student learning objectives, this book is ideally designed for students, administrators, policymakers, researchers, academicians, practitioners, managers, executives, strategists, and educators seeking current research on the application of modern mapping tools for assessing student learning outcomes in higher education.
